SPECIFICATIONS

Dimensions in mm

All dimensions are specified in millimeters.

Availability

All catalogue products are available unless otherwise indicated.

MOQ

The minimum order corresponds to 1 box.

1.

Corkcoal[®]

In the creation of micro-granulated cork stoppers as we know it, complex industrial processes are employed, using large quantities of water, energy and chemical agents. All of this to remove unwanted properties from cork such as: TCA, taste, smell, defects, colour...

Corkcoal[®]

WE MIX CORK WITH **ACTIVATED CHARCOAL**.

Activated charcoal naturally neutralizes and traps unwanted substances from the cork.

Corkcoal stoppers accept and integrate variations in micro-granule colour and size with the aim of offering **the most sustainable stopper on the market.**

Corkcoal[®]

Corkcoal®

We accept what others discard,
making better use of raw
materials, reducing waste.

**Where others see defects, we
see natural qualities.** An
impurity or a difference in the
size or colour of the cork
particles is not a problem.
